How it Works

Synergy is the solution. Your Holistic Life's Vitamin C,B,E & Ferulic Serum uses remarkable antioxidant ingredients to ensure that the whole is greater than the sum of its parts.

Ferulic Acid is an organic compound commonly found in plant cell walls. As an antioxidant Ferulic Acid actively fights free radicals. Free Radicals are a significant contributor towards oxidative stress which results in DNA damage and cellular aging. When combined with Vitamin C and Vitamin E, Ferulic acid increases its ability to fight free radicals reducing damaged caused by oxidative stress.

Vitamin C, also known as Ascorbic Acid, plays a significant role in the Collagen Synthesis process. This helps to thicken skin and reduce the appearance of fine lines and wrinkles. As a potent antioxidant, it fights free radicals and reduces oxidative stress. We use **20% Vitamin C** stabilized by Ferulic acid. Thanks to this high percentage, it also helps lighten the skin by acting as a de-pigmenting agent.

Vitamin E like Vitamin C is a powerful antioxidant. Vitamin E helps protect the skin from scarring and age spots and helps increase the skin's hydration levels. Vitamin C and E can regenerate each other optimizing each other's antioxidant effects. Studies have found the skin protection benefits are much more effective when using a combination of both Vitamin E and C, rather than by using each Vitamin alone.

To increase the skin whitening potential of Vitamin C we've added Vitamin B3 (Niacinamide). Vitamin B-3 is an excellent active that helps lighten the skin by reducing the visibility of melanin. Vitamin B3 inhibits the transfer of pigment to the surface of the skin which helps alleviate dark spots.

Finally, we've included Vitamin B-5 (Pantothenic acid) as a rejuvenating vitamin that helps accelerate the natural healing process. This helps boost the collagen regeneration results of Vitamin C. Vitamin B5 has good skin penetration and also improves hydration levels in the skin.

The best companies offering Vitamin C, E & Ferulic Acid serums use about 15% Vitamin C and do not include the B Vitamins yet retail their produces up to and more than \$150. Your Holistic Life once again sets the pace at half the price with greater concentration! This vitamin-loaded formula delivers the full scope of antioxidant power and complete skin rejuvenation in a vitamin rich, moisturizing and pigment correcting serum treatment.
