Full Flex Rx™ Advanced Joint & Pain Supplement

Full Flex Rx™ is quite simply the most advanced joint and comfort formula available and has the ability to potentially target the conditions and discomforts of aging joints by providing antioxidant support and powerful building block material support! Anyone with sports injuries, strains or the pain from arthritis and aging joints may benefit from Full Flex Rx™ !*

Joint Structure & Function Support:

- **Sea Cucumber**, a source of bioavailable chondroitin sulfates and fatty acids that promote joint comfort.*
- **Sodium Hyaluronate**, a source of hyaluronic acid (HA) for joint hydration for the same qualities of healthy skin!*
- **Glucosamine** is a fast-acting building block for connective tissue.*
- **MSM**, has been used historically to support joint comfort and circulation.*

Joint Comfort Support:

- **Boswellic Acid** has been associated with improved joint comfort.*
- **Curcumin** works synergistically with Boswellia to maintain leukotriene & prostaglandin levels.*
- **Quercetin Chalcone** is an antioxidant that helps maintain prostaglandin levels.*
- **DMG**, a methyl donor supports immune system modulation and antioxidant protection.*
- **Nexrutine®** is a patent-pending plant extract from the phellodendron has a positive effect on enzymes to support joint comfort.*
